Concussion Facts for Student Athletes and Parents

Provided by OhioHealth Sports Medicine Concussion Management Team

We know athletes want to get back in the game as quickly as they can after an injury. It is our job to make sure they do so safely.

OhioHealth has the most comprehensive team of experts for sports concussions in central Ohio. Concussions are becoming a frequent injury for student athletes, particularly in contact sports. We are dedicated to working together with the injured athlete, their family, coaches, athletic trainers and personal physicians to ensure good communication regarding the athlete's status and care plan.
